

THE GHOST CATS LIFE

1. When The Night Is Young

When the streetlights in the city slowly replace the setting sun
And the young girls look so pretty still they put their make-up on
In the darkness they feel free
Covering what they don't want us to see
And the darkness is their hideaway
'cause in the darkness every animal is grey
When the night is young
And the mothers read their stories when the children go to sleep
Meanwhile outside in the darkness hungry wolves are killing sheep
In the darkness they feel free ...When the night is young
And the young girls look so pretty and they dance the night away
While the hunters feel no pity they are waiting for their prey
In the darkness they feel free ...When the night is young

2. The Party

Last night I went to a party, it wasn't a big affair
I got involved in some talking, and then in drinking some beer
And then we went to the dance floor, we did some interesting moves
When we got back to our table, we had some more of the booze
And then my head started spinning and I ran to the door
And then my legs gave way then I remember no more
Last night we went to a party, so I was told by a friend
We met some interesting people, I don't remember their names
I heard I danced on the table and sang along with the sound
Then I stripped off my T-shirt and then lay down on the ground

And then my head started spinning ...
And at the end of the evening, I lost control of my speech
I couldn't call for a taxi, and I woke up at the beach
And the sound of the ocean went ooooushhhh
And the sand in my mouth tasted oooushhhh
Let's go hey ho...
And then my head started spinning...

3. WYSIWYG

The apples in the superstore looked juicy, red and big
They had the best rating score the first bite made me sick
What you see is not always what you get!!!
The hotel in the catalogue had a view out to the sea
We landed, there was only smog, so thick we couldn't see
What you see is not always what you get, wow!!!
What you see's not what you get, so don't judge a book by its cover
Her boyfriend wore a business suite, he drove a Jaguar
At first she found him super cute, she was pregnant, he was gone in his car
What you see is not always what you get!!!
When they stomp their whistle talk they promise us a change
Can they really walk the walk to me things feel quite strange
What you see is not always what you get!!!
What you see isn't always what you get
What you see is not always what you get, wow!!!

5. A New Day

A new day is calling the news anchor sounds so smooth
A new day is dawning I'm wondering about the truth
City streets are covered with ice. Thunder storms 'n tornados kill five.
Queensland suffers torrential rain
And we all refuse to take the blame, and we all refuse to take the blame
A new day is calling the news anchor sounds so smooth
A new day is dawning I'm wondering about the truth
A thousands workers are losing their jobs. Demonstrators arrested by cops.
Bonuses for top business men
And we all refuse to take the blame, and we all refuse to take the blame
A new day is calling the news anchor sounds so smooth
A new day is dawning I'm wondering about the truth
Na na na ...Na na na ...Na na na ...
And we all refuse to take the blame, and we all refuse to take the blame
A new day is calling the news anchor sounds so smooth
A new day is dawning I'm wondering about the truth
Aaaaah aaaah aaaah uuuuh

THE GHOST CATS LIFE

6. Innocent

Thousands of refugees are leaving their countries in the search for safety and peace. War and destruction in their homelands, the fear of losing their families. We are debating what to do, who can afford to pay what's due. We are debating what to do, who can afford to pay what's due. Starving people in third world countries, tensions in the Middle East. Extreme religious prosecution, spreading fear and hate increase. We are debating what to do, who can afford to pay what's due. We are debating what to do, who can afford to pay what's due. 'Cause we are innocent, the whole thing took us by surprise, oh we are innocent, so why should we pay the price. While all the big players are trying to save the world, acting absolutely selflessly, we are watching the truly uncensored, objective reporting on the TV. And we are innocent, the whole thing took us by surprise, oh we are innocent, so why should we pay the price. We are debating what to do, who can afford to pay what's due. We are debating what to do, who can afford to pay what's due. 'Cause we are innocent, the whole thing took us by surprise, oh we are innocent, so why should we pay the price. Oh we are innocent, the whole thing took us by surprise, yeah we are innocent, so why should we pay the price.

7. Life

Living this life, watching their strife, playing this game, but missing the gain. It's not what you know, it's not where you go
You can't see it in my eyes, it's not written in the skies
We all get the same in the end, in the end, we all get the same in the end

It's a push and a pull, a yell and a whimper, playing these moves, scraping those hooves. The killing of the pawns and the tangled horns. It's not written in the stars and we don't know if there's life on Mars. Waiting for the day when the list is read, when the light goes out, when I don't get out of bed.

We all get the same in the end, in the end, we all get the same in the end
With a flash and a bang, a laugh and a lie, the curtain comes down, in the blink of an eye, at the end of the day we can win we can lose
but however we live we can't escape the truth. The die will be cast and there is no doubt, there is just one way to get off this roundabout
It all comes to the same in the end, in the end, life goes on in the end

8. Human Race

The clock is ticking every second every day with every tick another child is born to stay. Can we sustain this, can we explain this, is this OK
Can the World keep up with this pace of the human race
Thousands of animals are dying constantly because we humans need the space and energy. Can we sustain this, can we explain this, is this OK
Can the World keep up with this pace of the human race
Can the World keep up with this pace of the human race
Can the World keep up with this pace of the human race
Money is the God to whom we like to pray though most people live in poverty today. Can we sustain this, can we explain this Is this OK
We burn our forests and pump oil from our seas, we cause pollution, bring the planet to its knees Can we sustain this, Can we explain this, is this OK
Can the World keep up with this pace of the human race
And we know we face the destruction of this place and the human race

9. Ich Bin Wichtig

Ich trink' den Kaffee im steh'n mich kann jeder seh'n
